

LEFT (SOFT)

RIGHT (HARD)

ARROWS UP

bgm PRO Silentblock set Lambretta LIS, SX, TV (series 2-3), DL, GP **BGM7950**

Congratulations for purchasing the bgm PRO Silenblocks! They offer a massive improvement for cutting down vibrations.

There is a left (marked L) and a right hand side (marked R). Because the centre line of the crankshaft is closer to the right hand side, this side needs to be slightly stiffer.

The fitting instructions are detailed given in Sticky's Workshop Manual. Or hidden behind the QR code. The right positioning is given by the arrow, that should face to to the top (12 o'clock).

bgm is a Scooter Center GmbH trademark.
